# HDMI Extender

- Rigenera il segnale HDMI decodificandolo e ricodificandolo in un nuovo segnale HDMI
- Estende il raggio di trasmissione senza degradazione del segnale
- Estende fino a 40m
- Supporta standar ULTRA HD (4K) e Full-HD 1080P

It regenerates the incoming HDMI Signal by decoding and re-encoding it to a new standard HDMI signal, so it can extend the transmission range without degradation. It can extend up to 40 meters transmission distance. The repeater supports a resolution up to Ultra HD (4K) and is backward compatible to Full-HD 1080P.
