Installation Instruction

Please Read the Manual Carefully Before Installation

Please Note

Electrical connection

The oven is fitted with a plug and must be only connected to a properly installed earthed socket. In accordance with the appropriate regulations, the socket must only be installed and the connecting cable must only be replaced by a qualified electrician.

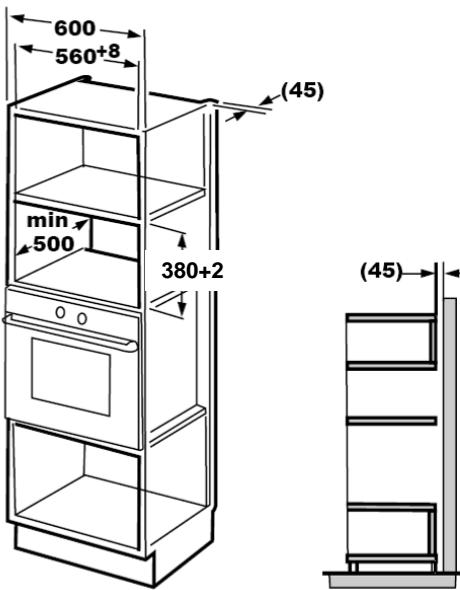

If the plug is no longer accessible following installation and all-pole isolating switch must be present on the installation side with a contact gap at least 3mm.

A. Built-in furniture

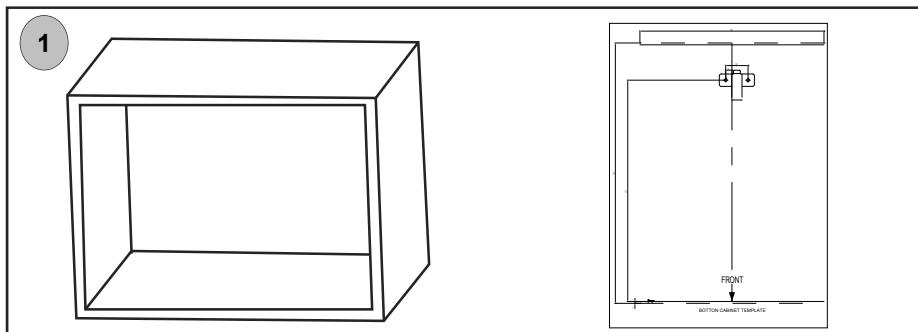

The built-in cabinet shall not have a rear wall behind the appliance.

Minimum installation height is 85cm.

Do not cover ventilation slots and air intake points.

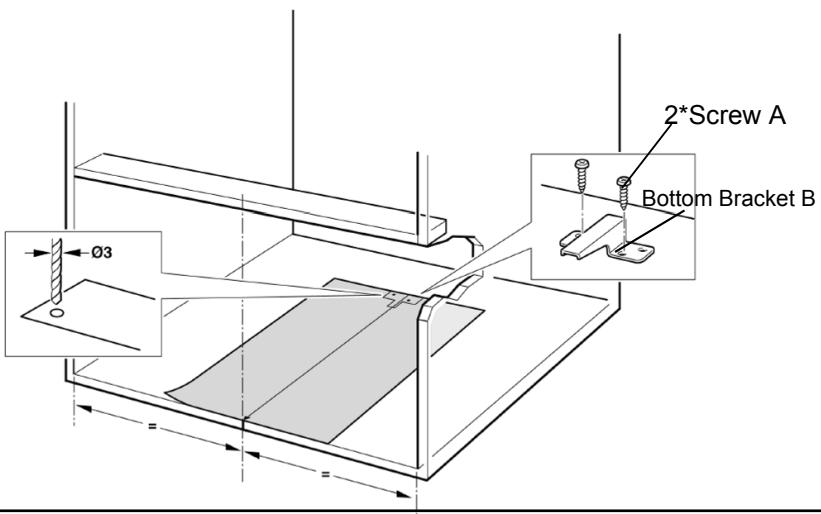

B. Prepare the Cabinet.

1. Put the BOTTOM CABINET TEMPLATE on the bottom plane of cabinet.
And make the center line of the template coincides with the bottom of cabinet.

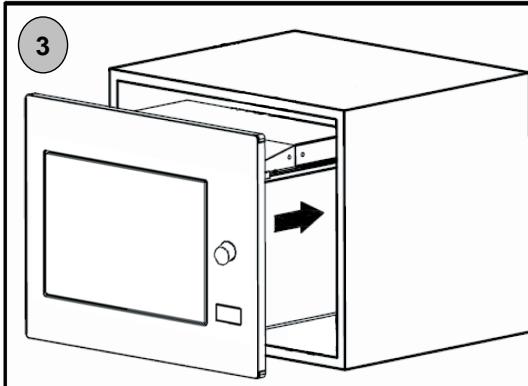

2

2. Fix the BOTTOM BRACKET B with two SCREW A.
And remove the BOTTOM CABINET TEMPLATE.

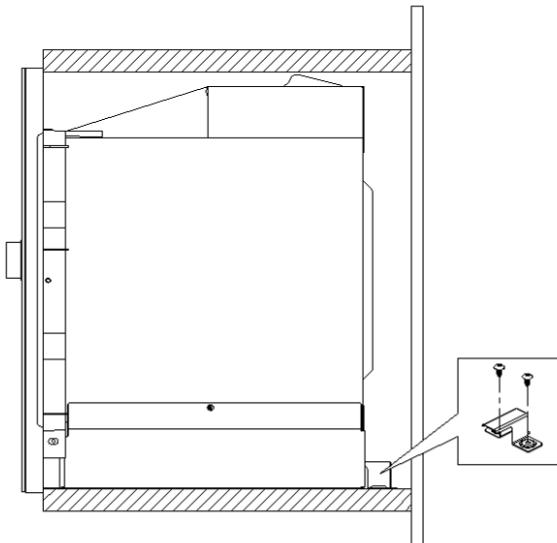

C. Install the oven.

3

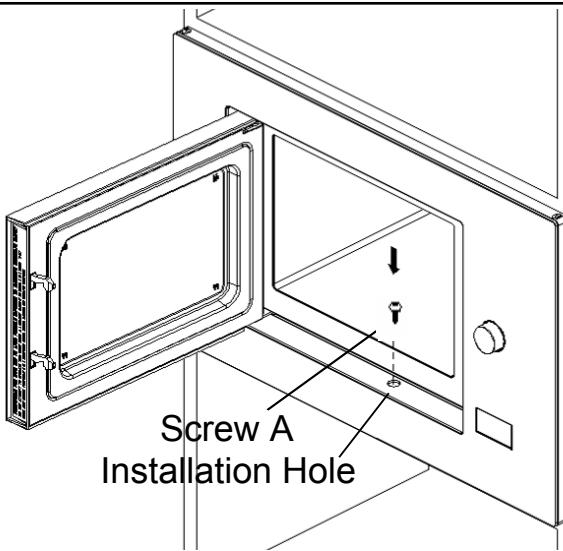

3. Install the oven into the cabinet.
 - Do not trap or kink the power cord.

4

4. Bottom Bracket B is just installed against the back shell of the oven.

5

5. Open the door; fix the oven to the cabinet with SCREW A at the INSTALLATION HOLE of TRIM KIT.

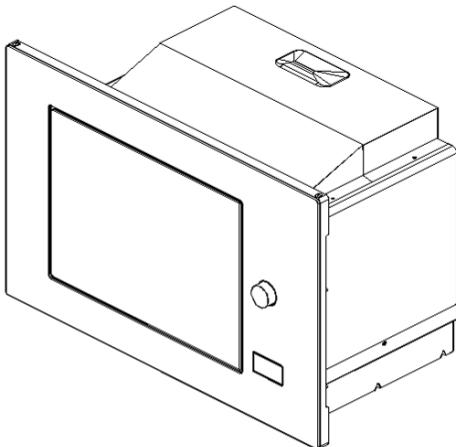

Manuel d'installation

Merci de lire attentivement le manuel avant l'installation

3 vis A
Patte de fixation B

Gabarit pour le
bas du meuble

Merci de noter

Connection électrique

Le four est équipé d'une prise et doit être connecté à une prise terre adaptée.

Conformément à la réglementation, la prise doit être installée et le câble de connection doit être remplacé seulement par un électricien qualifié.

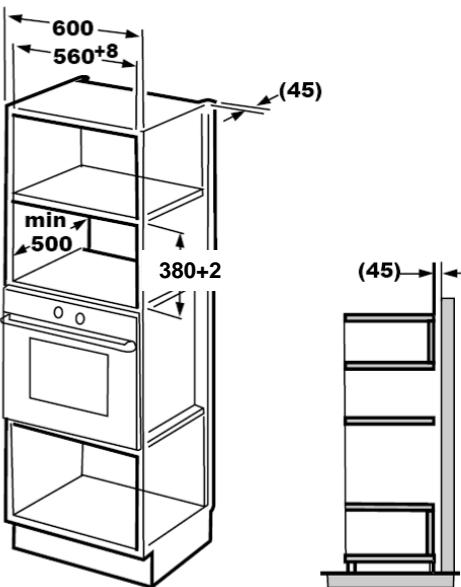

Si la prise n'est pas accessible après l'installation le commutateur doit être accessible sur le côté de l'installation avec un espace de 3mm.

A.Meuble d'encastrement

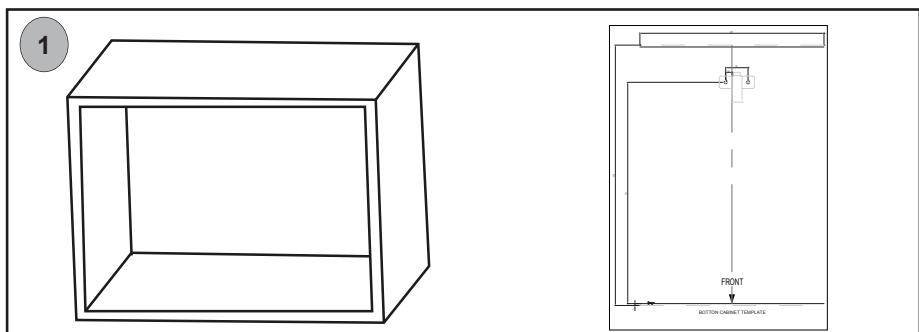

Il n'est pas recommandé d'avoir une cloison derrière l'appareil.

La hauteur d'installation minimale est 85cm.

Ne couvrez pas les fentes de ventilation et les zones de prise d'air.

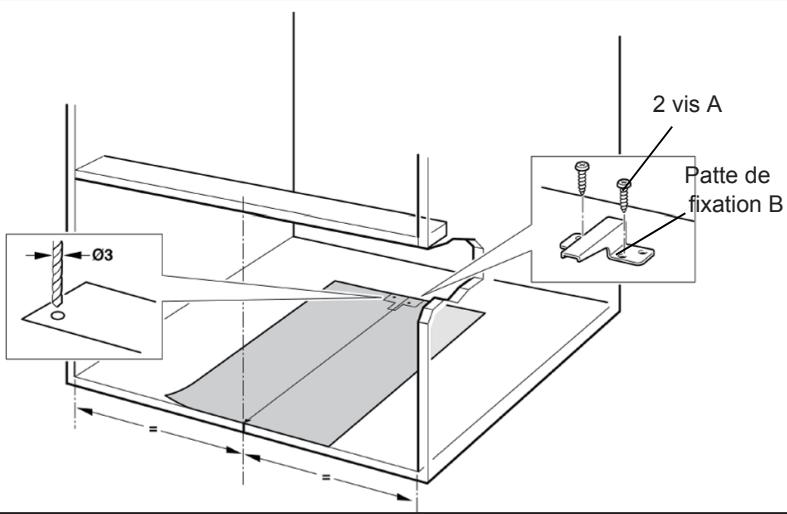

B Préparation du meuble

1 .Mettre le gabarit sur le bas de la niche du meuble en faisant en sorte que la ligne du gabarit soit centrer et coincide avec le centre du bas de la niche.

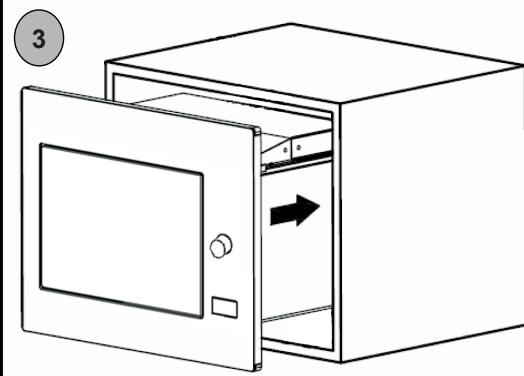

2

2. Fixer la patte de fixation B avec les deux vis A et enlever le gabarit installé précédemment.

C. Installer le four

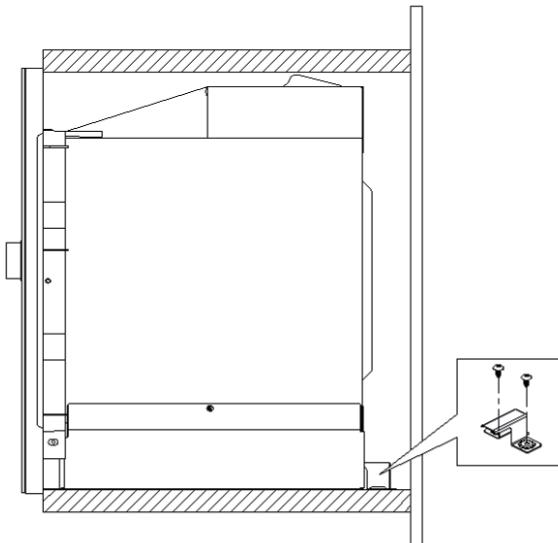

3

3. Installer le four dans la niche.

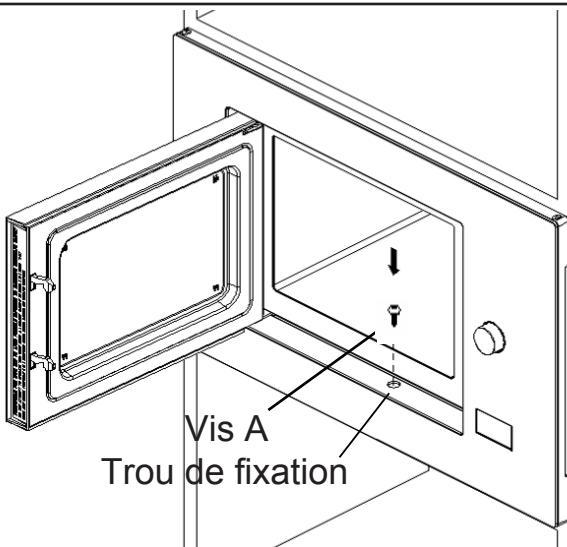

- Ne pas coincer ou plier le câble d'alimentation.

4

4. La patte de fixation B est installée contre la paroi arrière du four

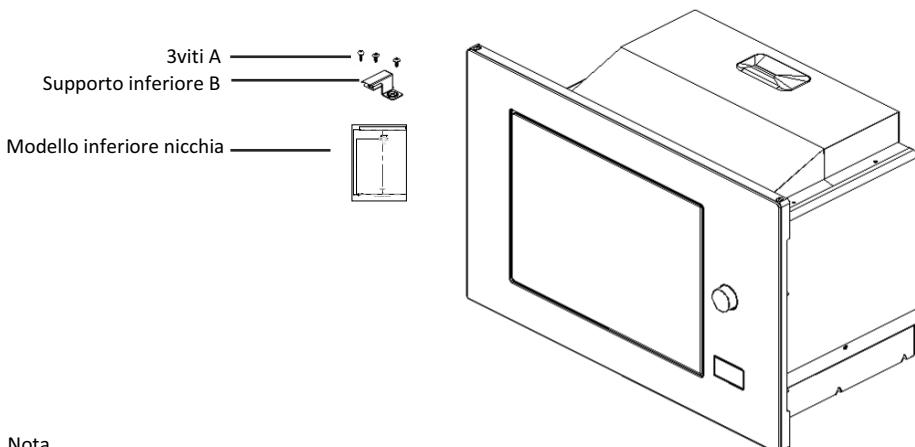

5

5. Ouvrir la porte, fixer le four au meuble avec la Vis A par le trou de fixation.

Istruzioni per l'installazione

Si prega di leggere attentamente il manuale prima dell'installazione

Nota

Il collegamento elettrico

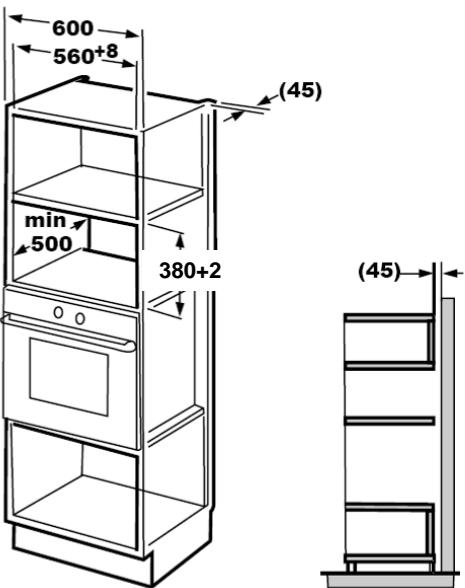

Il forno è dotato di una spina e deve essere solo collegato ad una presa con una corretta installazione di terra. In conformità con le normative del caso, la presa deve essere installata e il cavo di collegamento deve essere sostituito solo da un elettricista qualificato.

Se la spina non è più accessibile dopo l'installazione tutti i poli sezionatori devono essere presenti sul lato di installazione con una distanza tra i contatti di almeno 3 mm.

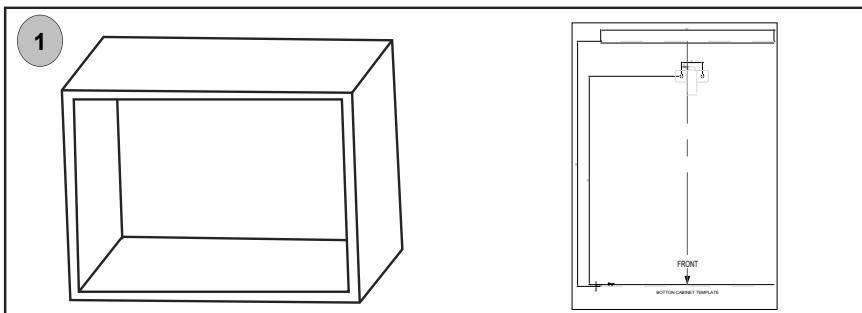

A - Mobile da incasso

Il mobile da incasso non deve avere una parete posteriore dietro l'apparecchio. L'altezza di installazione minima è 85cm.

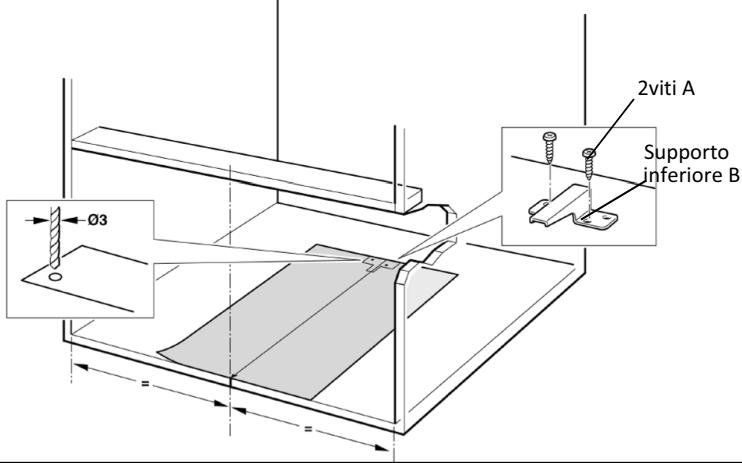

Non coprire le fessure di ventilazione e i punti di presa d'aria.

B – Preparare la nicchia di incasso

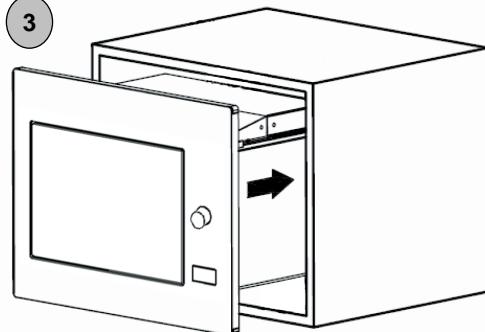

1. Appoggiare il modello inferiore della nicchia nel piano della interna della nicchia stessa e allineare il modello inferiore della nicchia con il piano inferiore della nicchia.

2

2. Fissare il supporto inferiore B con le due viti A e rimuovere il modello inferiore della nicchia.

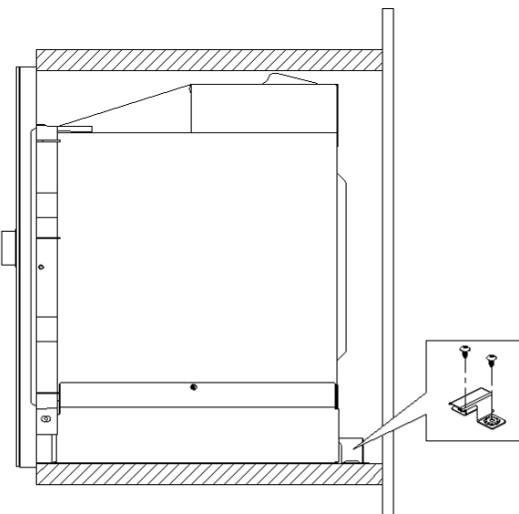

C. Installazione del forno.

3

3. Installazione del forno.

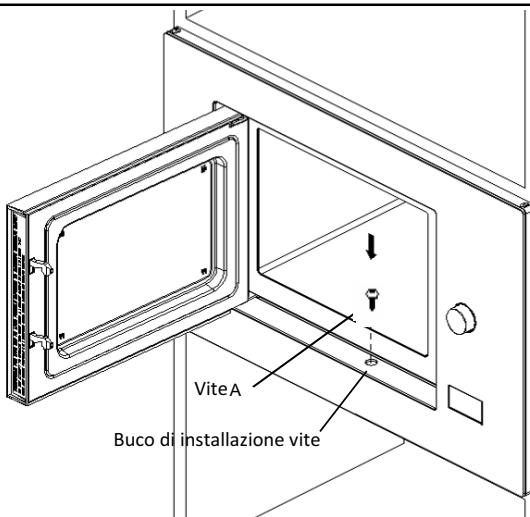

- Installare il forno dentro la nicchia. Evitare di attorcigliare o bloccare il cavo di alimentazione.

4

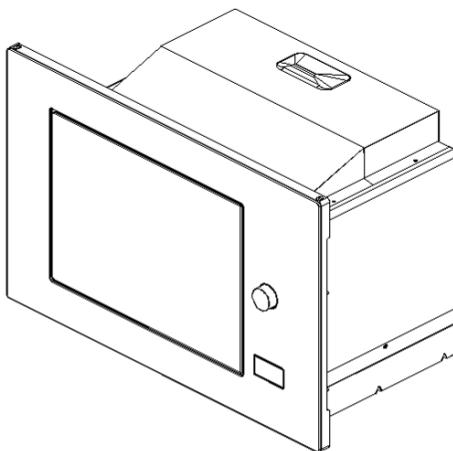

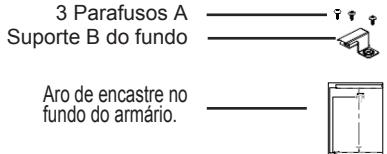

4. Il supporto inferiore B deve essere installato contro la parte posteriore della struttura del forno.

5

5. Aprire la porta; fissare il forno nella nicchia con la vite A e coprire il buco di installazione.

Instruções de instalação

Atenção

Ligação eléctrica

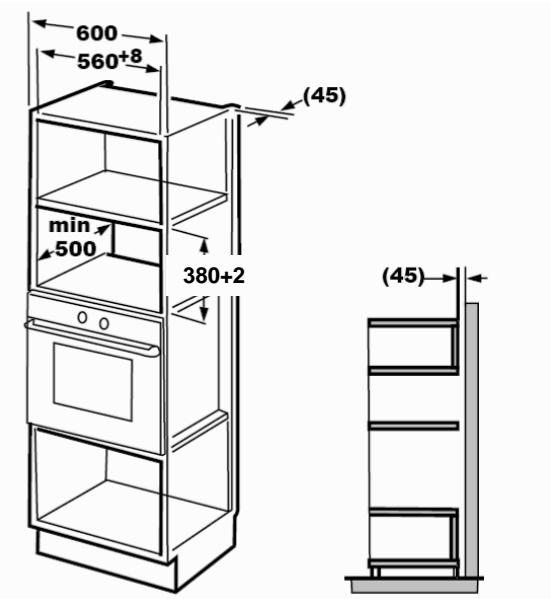

O forno está equipado com uma ficha que só deve ser ligada a uma tomada com terra correctamente instalada. A ligação eléctrica só deve ser feita por um electricista qualificado. Se a ficha deixar de estar acessível após a instalação do forno e todos os pólos de isolamento de mudança devem estar presentes ao lado de instalação com uma abertura de contacto de, pelo menos, 3 milímetros.

A. Encastrar em móveis

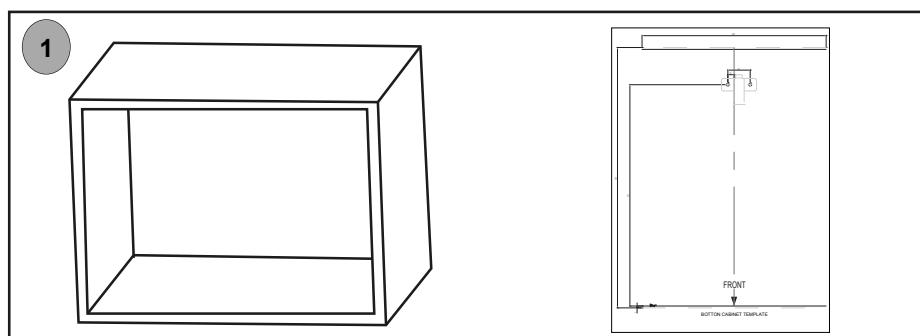

O armário onde o forno vai ser encastrado não deve ter parede traseira por trás do aparelho, deve ter o fundo aberto.

A altura mínima de instalação é 85 centímetros.

Não cubra as aberturas de ventilação e os pontos de entrada de ar.

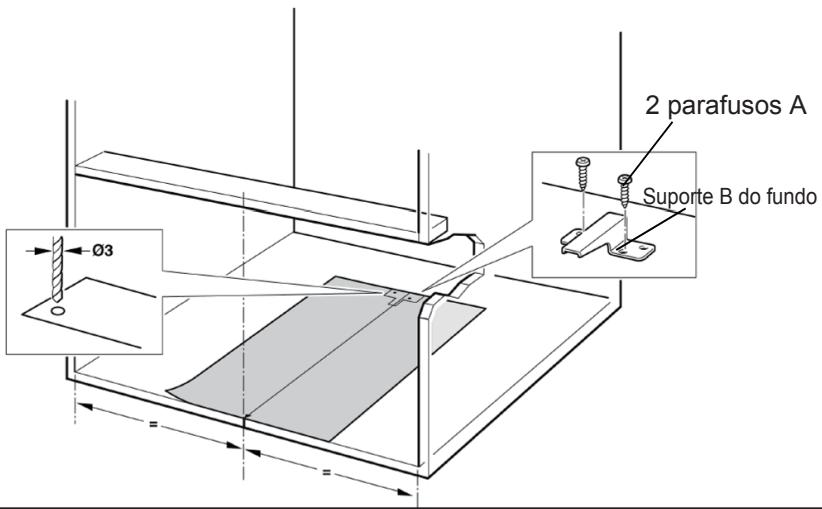

B. Preparar o encastre

- 1 - Coloque o aro de encastre no fundo do armário em que o electrodoméstico vai ser encastrado. Depois faça a linha de centro do esquema coincidir com o fundo do armário.

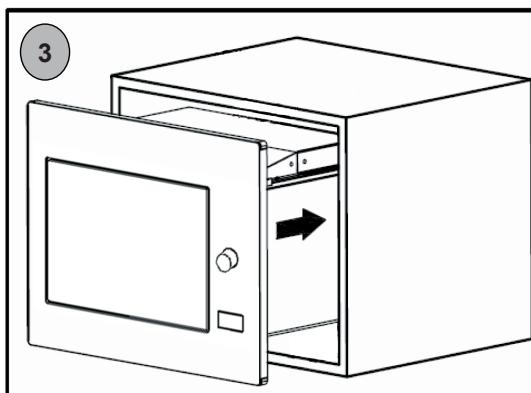

2

2 - Fixe o suporte do fundo com os 2 parafusos A e depois pode remover o esquema do fundo.

C. Instalar do forno

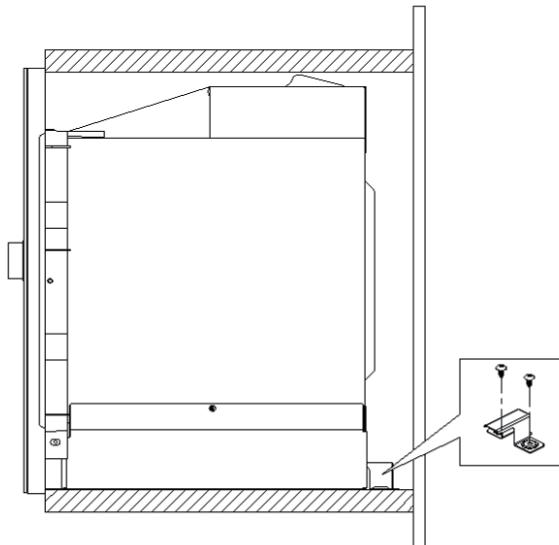

3

3 - Insira e instale o forno no espaço de encastre já depois do aro colocado.

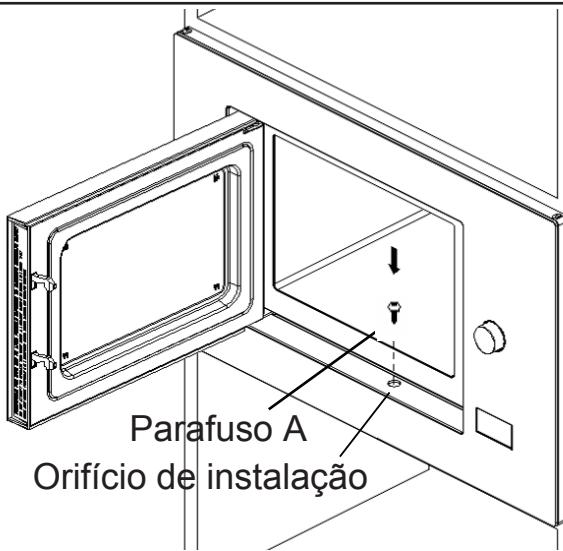

- Nunca torça nem esforce o cabo de alimentação do aparelho.

4

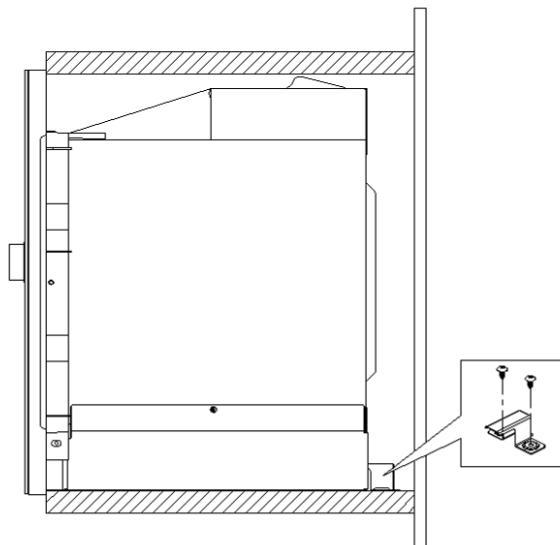

4 - O suporte B do fundo está instalado apenas na parte de trás do aro de encastre do forno.

5

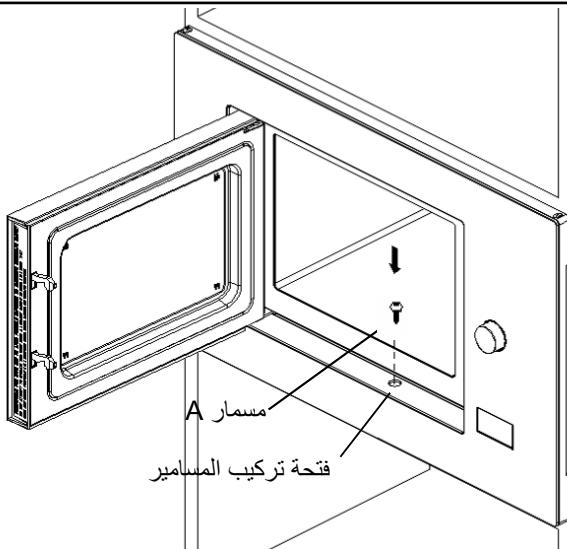

5 – Abra a porta e fixe o forno ao aro de encastre com o parafuso A no orifício do kit da tampa.

4

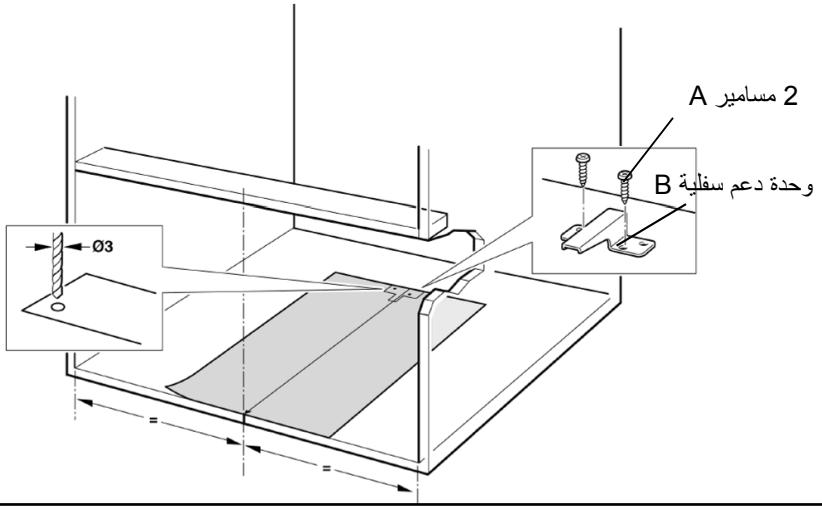

4. يجب تركيب وحدة الدعم السفلية B على الجزء الخلفي من هيكل الفرن.

5

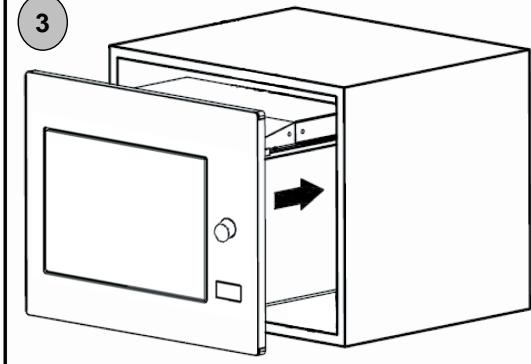

5. أفتح الباب، ثبت الفرن في مكانه الصحيح باستخدام المسمار A وغطي فتحة التركيب.

2

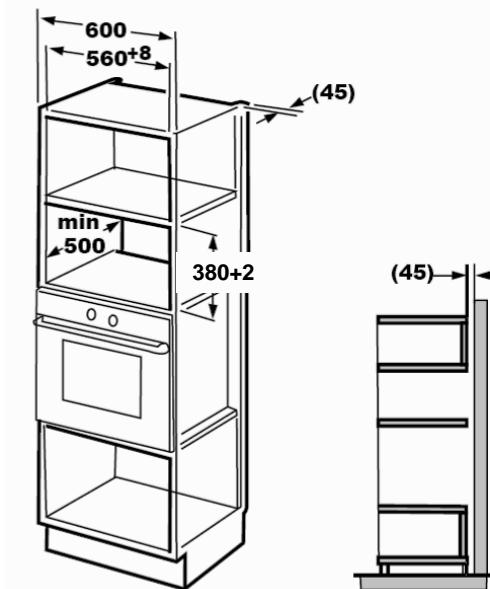

2. ثبت وحدة الدعم السفلية B باستخدام مسامير A وأزل قالب السفلي لمكان التثبيت.
 (ج) - تركيب الفرن

3

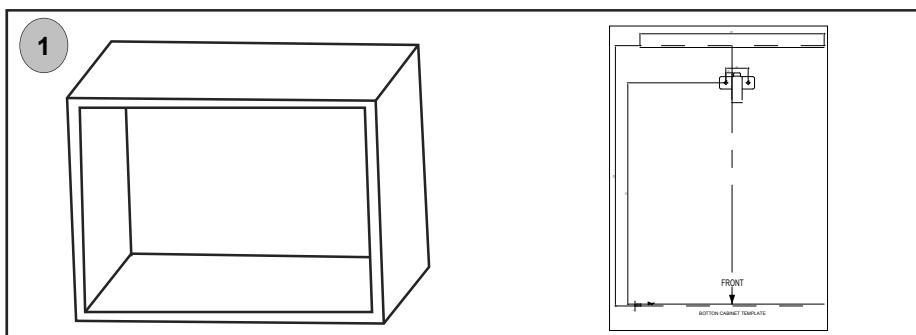

3. تركيب الفرن.
 • قم بتركيب الفرن داخل مكان التثبيت الخاص به. تجنب عرقلة أو سد ومنع سلك الكهرباء.

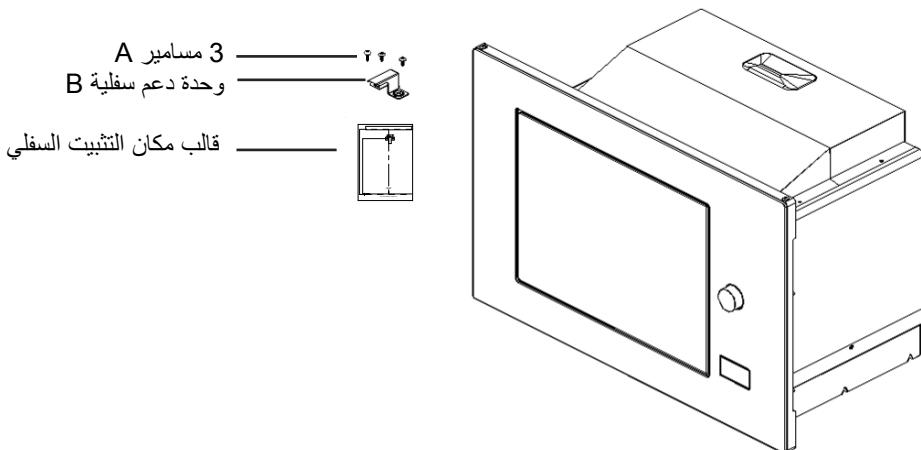

(ب) - تجهيز مكان التثبيت المدمج

1. ضع قالب مكان التثبيت السفلي داخل مكان التثبيت ذاته وقم بمحاذاة القالب السفلي لمكان التثبيت مع المستوى السفلي لمكان التثبيت.

أفران الميكروويف دليل التشغيل

تعليمات التركيب
يرجى قراءة الدليل بعناية قبل التركيب

ملحوظة

التوصيل الكهربائي

إن الفرن مجهز بقباس و يجب توصيله فقط بمقياس ذو تأريضن صحيح. ووفقاً للوائح المعمول بها، يجب تركيب مقياس الكهرباء واستبدال سلك التوصيل الكهربائي بواسطة كهربائي متخصص فقط.

إذا لم يكن متاحاً الوصول إلى القابس بعد التركيب فيجب وضع جميع الأقطاب العازلة الموجودة على جانب التثبيت على مسافة لا تقل عن 3 ملم بين التوصيلات.

(أ) -وحدة المطبخ المدمجة

يجب ألا تحتوي وحدة المطبخ المدمجة على جدار خلفي وراء الجهاز. إن الحد الأدنى لارتفاع التركيب هو 85 سم.

لا تغطي فتحات التهوية ونقاط دخول الهواء.
الحد الأدنى
